

- TERRACOTTA
- QUARRY TILES
- NATURAL STONE
- CONCRETE
- WALLS

WHAT IT'S FOR

- Eliminates algae, moss and lichen from external wall and floor surfaces
- When used after Fila Smuffy, it provides protection against mould formation

ADVANTAGES

- Easy to use spray applicator
- Perfect for both vertical and horizontal surfaces
- Long lasting action
- Perfect for many different surface types: roofs, walls, pavings, terracotta stairs, quarry tiles, brick veneers, natural stone and concrete
- Guaranteed results on external surfaces: just spray then leave to act for a few days.
- No need to rinse

HOW IT'S USED

Ready for use: no dilution required

Application:

1. Spray the product onto the surface to be cleaned. Use an airless applicator for larger areas. The product can also be applied using a clean paintbrush. Fila Noalgae will start work immediately, gradually eliminating the green deposits on the surface.
2. For perfect results it is necessary to wait 2-3 days, depending on the amount of growth to be removed.
3. Once the surface is clean it can be rinsed with water or left for the first rainfall. Any residue of the product will penetrate the material and continue to act, preventing further build-up of undesired growth.

Packaging

500 ml bottles with spray trigger in box of 12.
5 litre flasks in box of 4.

PRECAUTIONS

• keep out of the reach of children.
The product is harmful to plants and vegetation. When rinsing, ensure that the run-off does not come into contact with these.

COMPOSITION

Contains: cationic surfactant < 5 %

LABELLING

No risk or safety labels or warnings are required since the product is not classified as hazardous under current regulations

TECHNICAL INFORMATION

Appearance: transparent colourless liquid
Odour: slight characteristic odour
Density: 1.000 kg/litre
pH: 8.0

The information above reflects our latest technical know-how and is the outcome of ongoing laboratory research and testing. However, some factors are beyond our control. It is essential to integrate our suggestions with your own on-site preliminary spot tests and checks.
